* Comment. There have been no changes 50X1-HUM

* Comment. There have been no changes indicating that the Trost Kaserne, Wienna, and the barracks installation at Kagran were occupied by component units of the 13th Gds Mecz Div, while only rear details were in Khosterneuturg. It is believed that the elements of the 13th Gds Necz Div which had gone to the Doellersheim troop training grounds were still there in early September 1950.
